Group F:	American Literature (9) Jessi Morton Gretchen Vaughn Room 222	Outside supervised time	Biology (9) Shara Damian Ashley Mustain Room 222

CLASS DESCRIPTIONS BY GROUP

Students in Groups A and B will be placed in the classes described for their groups. Students in Groups C, D, and E will choose between two class options for each of their three class periods. Students in group F will be placed in the classes described for their groups and will have a 15-minute supervised break time between their two class periods.

Group A

Nursery (all three hours)

Teachers: Jenny Spencer, Holly Bohte, and Bethany Stuard

Class Fee: \$10 (total for all three hours)

Our littlest ones will spend the day playing games, making music, and having fun!

Group B

1st Hour (9:25-10:18 am)

Stories and Sensory

Teacher: Keri Vasek

Class Fee: \$9

We will listen to wonderful stories while engaging in sensory play (play dough, water beads, kinetic sand, slime, etc).

Note: Class may use materials containing allergens- gluten, eggs, etc.

2nd Hour (10:20-11:13 am)

Little Builders

Teacher: Jessi Headley

Class Fee: \$15

Let's build! We will build towers, bridges, buildings, tunnels, etc.

Note: Please bring a paint smock/shirt for the first week.

3rd Hour (11:15-12:08 pm)

Run & Fun (with snacktime)

Teacher: Haleigh Villagomez

Class Fee:

Time to run and play and burn off some energy! Students in this class may bring a NUT FREE snack to eat during class.

Group C

1st Hour (9:25-10:18 am)

American Girl History 2

Teacher: Carrie Phillips

Class Fee: \$10

This class geared toward girls in grades 1-4 would broadly cover American History through the lens of the American Girl historical book series. The second semester class would begin where the first semester class left off and therefore be focused on post civil war events set primarily in the 20th century. Classroom activities would include discussion of each main character's story as well as day to life & primary historic events occurring during the time period in which she lived. Class will also include crafts and possibly a snack related to the time period.

Supplies required: Scissors, glue stick, crayons. Students will be encouraged to read one book about each of the following American girls: Samantha, Kit, Molly, MaryEllen, and Melody. These could be borrowed from the library.

-or-

Five in a Row

Teacher: Jenny Perot

Class Fee: \$5

Exploring classic books with young children through activities, games and songs!

2nd Hour (10:20-11:13 am)

Run & Fun (with snacktime)

Teacher: Haleigh Villagomez

Class Fee: \$

Time to run and play and burn off some energy! Students in this class may bring a NUT FREE snack to eat during class.

-or-

Story Art

Teacher: Alisha Tetreau

Class Fee: \$10

Through the use of a story book, we will create art. Some weeks we will mimic an illustrator's style and other weeks we will create art based on a character or subject. This is a great way to help kids dive deeper into a story book and have a little fun doing it.

Note: Please bring an old shirt or something to cover yourself to prevent messing up your clothes.

3rd Hour (11:15-12:08 pm)

Step into STEM

Teacher: Shayla Dabney

Class Fee: \$10

In this class, students will do several projects to introduce them to or reinforce STEM learning.

-or-

Nature Study Journal

Teacher: Gretchen Vaughn

Class Fee: \$11

Students will take time to observe in nature, and about identification. They will study common trees, critters, etc in our local area, keeping a nature journal to record their findings.

Group D

1st Hour (9:25-10:18 am)

Marine Biology

Teacher: Jen Gonseaux

Class Fee: \$

Marine Biology will discover the animals of the sea, while also exploring the class order and the levels of the ocean.

-or-

Introduction to Handicrafts

Teacher: Ashley Mustain

Class Fee: \$20

In this class we will be exploring various handicrafts, and their histories. Some of the crafts we will look at are knitting, origami, soap carving and more!

2nd Hour (10:20-11:13 am)

Map Skills

Teacher: Kira James

Class Fee: \$5

Students will be introduced to map skills and learn to read a variety of maps! They will learn to read physical maps, population maps, political maps, natural resource maps, precipitation maps, road maps, and others.

The class will get hands-on practice using engaging activity pages. They will learn to use important map features such as the key/legend and compass rose, while also learning to read grids, identify hemispheres, longitude and latitude, and more!

-or-

Alaska: The Last Frontier

Teacher: Angela Galloway

Class Fee: \$

Come learn all about the 49th state. In this class we will learn about Alaska's history, the Iditarod, Alaskan animals, weather, earthquakes, Eskimos games, food, glaciers, Mt McKinley, transportation, and more.

3rd Hour (11:15-12:08 pm)

American Sign Language

Teacher: Josh Bruffey

Class Fee: \$

In this class students will be exposed to basic American Sign Language and the culture from whence it came. Students will be expected to complete a project by the second to last week of co-op that represents something meaningful they learned or something or someone whom they found interesting - type of project or presentation can be chosen by the student.

-or-

Greek Mythology

Teacher: Charissa Montoya

Class Fee: \$

We will be working through the Odyssey and learning about Greek Mythology.

Group E

1st Hour (9:25-10:18 am)

Introduction to Handicrafts

Teacher: Ashley Mustain

Class Fee: \$20

In this class we will be exploring various handicrafts, and their histories. Some of the crafts we will look at are knitting, origami, soap carving and more!

-or-

Introduction to Physics and Chemistry

Teacher: Mike Ferrell

Class Fee: \$5

I will attempt to introduce the students to the basic principles of science, focusing on physics and chemistry. We will first learn about the scientific method and graphing and its importance for displaying data of many kinds. The physics section will include the laws of motion, electricity and magnetism, and the nature of light. The chemistry section will include the nature of matter and its states, atomic theory, ionic compounds, and organic molecules. We'll talk about chemical reactions including the formation of polymers and their uses. We'll also take a survey of chemicals commonly found in the home. Finally, I'll provide from my own experience an idea of what a career in science looks like, what options might be available, and what skills a student would need to move toward a scientific career.

The math will be minimal, but the students can bring a simple calculator and a knowledge of multiplication and division. For any other math, I'll walk them through it. I'll provide some optional homework to help reinforce any principles we've discussed in class.

2nd Hour (10:20-11:13 am)

Make A Joyful Noise

Teachers: Dana Zawada, Christy Day Class Fee: \$12

Join us as we learn to play classic hymns on the recorder. We will play as large a range on the recorder as possible, and for that reason it is recommended that students have experience with the recorder or reading music for another instrument. We will play songs like: How Great Thou Art, Christ the Lord is Risen Today, Come Thou Fount, It Is Well With My Soul and more. Many can be played with multiple parts and harmony.

-or-

Personal Finance 2

Teacher: Miranda Barrett

Class Fee: \$

3rd Hour (11:15-12:08 pm)

Greek Mythology

Teacher: Charissa Montoya

Class Fee: \$

We will be working through the Odyssey and learning about Greek Mythology.

-or-

Spanish 2

Teacher: Julie Hawk

Class Fee: \$8

Learn basic Spanish vocabulary through songs, games and worksheets.

Group F

1st Hour (9:25-10:35 am)

American Literature

Teacher: Jessi Morton

Class Fee: \$

Students will look at classic and modern works of literature (mostly short stories). We will discuss the elements/types of story, and topics relating to life in America. We will be discussing literature that helps us look at the past, present, and future of America. The desire is for this class to be discussion based. I also want it to expand the student's reading to include genres, authors, and subject matter that hasn't been previously explored.

Break (10:38-10:58 am)

2nd Hour (11:00-12:08 pm)

Biology

Teacher: Shara Damian

Class Fee: \$0

Enrichment classes will focus on labs and dissections. We will be using microscopes and dissection equipment as part of class. Students will enjoy participating in labs with their classmates, and will benefit just from labs and dissections if you choose not to follow the curriculum at home. I don't want anyone to be overwhelmed by this course, so this Enrichment class will be great on its own, or to use alongside the curriculum.
